

## Technical data

### General specifications

Operating frequency	2.4 GHz (ISM band)
Transfer rate	max. 115 kBit/s

### Interface

Physical	Bluetooth v1.2 Profil SSP (Serial Port Profile) Detection range up to 100 m
----------	---

### System requirements

Operating system	Microsoft Windows 2000, NT or XP MAC OS, Linux, UNIX oder andere
------------------	---

### Ambient conditions

Ambient temperature	0 ... 70 °C (273 ... 343 K)
---------------------	-----------------------------

### Mechanical specifications

Connection	System connector for connecting cable USB 1.1 RS 232 PS/2 configured for RS 232
Dimensions	81 mm x 70 mm x 25 mm

## Model Number

### ODZ-MAH-B15-R2

Bluetooth modem, configured for RS 232

## Features

- Wireless connection with Bluetooth-compatible handheld unit
- Safe data transfer thanks to bidirectional communication

## Function

The Bluetooth Modem ODZ-MAH-B15-R2 offers you the possibility of the wireless connection of Bluetooth-compatible devices from the I\*T-HH20 product family with your computer and the transfer of the read data by radiotelegraphy.

Due to the simple installation and a range of up to 100 m the Bluetooth Modem ODZ-MAH-B15-R2 is ideal for this purpose, provided your Bluetooth-compatible device is mobile and its cables are not prone to interference.

The modem is already pre-configured ex-works for the cabling of the RS 232 interface of the computer.

Note: The RS 232 connection cable is not included in the delivery package.
